Description of Terms:

Chr Gains = Net change in total churches from previous year. Does not equal New Churches planted.

Total Chrs = Total of all active churches

Mbr Gains = New members added during this reporting period

Total Mbrs = Total of all members reported during this period

AVG/Chr = Calculated average members per church or the average church size

Mbr:Gain = Calculated ratio of members to members gained. Should be read "XX members to produce one new member." Base membership used does not include New Mbrs gained this period.

Gain/Chr = Calculated average of gains per active church and does not include New Chrs this period

Miss = Total count of reported missionaries per region. Special Assignments not related to specific regions are shown in US totals.
